

Affordable Green Housing is possible!

Whether your organization manages or builds affordable housing in the Chicago area incorporating green building into your organization's construction program can be a challenge. Come hear Jon Sader, the former Construction Director of **The Make it Right Foundation**, who developed a process to build affordable net-zero housing in New Orleans' hurricane ravaged Lower Ninth Ward. Jon will discuss his paradigm (and repeatable process) for building affordable LEED Platinum homes for less cost than a conventionally built home.

June 7th, 2012 8:00am - 11:30am
